Digital displays and diagnostics

CSi manufactures systems for displaying engine parameters, control module state, diagnostics, and more. Choose from a variety of our in-production of-the-shelf systems or inquire about having a device made to suit your needs. Whether it is a simple gauge or Windows or Linux-based application, we deliver complete systems as well as kits for private label applications for our OEM customers.

- Engine Monitoring Systems
- Diagnostic Modules
- Advanced Diagnostics
- Safety Shut-down
- Troubleshooting Tools
- Digital Gauges
- Gauge Drivers
- Custom Windows Applications
